## Part I OpenMETRIC

### 1 Overview

- Company Strengths
- Technology Strengths
- OpenMETRIC Features
- OpenSystems Functionality
- FAQ
- Conclusion

### 2 Getting Started

#### Installing

- Installation Steps
- Installing Windows Script Host
- Running the Installation Program
  - New Install
  - New Install with Sample Data
  - New Install with Empty Data
  - Upgrade
    - Upgrade - Keep Existing Data
    - Upgrade - Install Empty Data
    - Upgrade - Install Sample Data
  - Laptop Client
  - Configure Only
- Registering Your OpenMETRIC License
  - Scheduled License Task
- Configuring OpenMETRIC for Database Use
- Customizing Configuration Files
  - User Specific Configuration Entries
  - USE-ALT-DIRLIST
  - USE-ALT-SHOWFILE
  - Document Viewer Configuration Variables
  - ThinMETRIC Configuration Variables
  - WebMETRIC Configuration Variables
  - WonderCONNECT Configuration Variables
  - WonderSERVER Configuration Variables
- Reviewing Version-Specific Documents
- Installing Barcode Fonts

#### Test Drive

#### Word Macros

- Word Macros for Paged List Box Exporting
  - Creating OmetPLB Macro
  - Creating OmetPLB132 Macro
- Word Macro for WonderWriter
  - Creating WonderWriter Macro

#### Scheduled Tasks

#### Field Security

#### Using Laptops for Remote Cals

#### Multiple Cal Procedures

#### Bar Codes

#### Table Structures

#### Handheld Devices

#### Trouble Shooting

### 3 How To

#### How To

- Begin Job Tracking for the Item
- Define Servicing to be Done for the Item
- Begin Calibration for the Item

- Enter Calibration Information for the Item
- Complete the Calibration
- Approve the Calibration
- Close Job Tracking

#### **4 Using OpenMETRIC**

##### **Menu**

##### **Tool Bar**

- Fetching Using the Toolbar
- Item Finder Binoculars
- Item Finder
- Items by Using Customer
- Items by Category
- Items by Location
- Current Item

##### **Tabs**

##### **Fetching**

- Fetching Using Record Finder

##### **Window Buttons**

- Record Update Buttons
- "More" Buttons
- Add'l Esign Button
- Record Finder Buttons
- Field Finder Buttons
- Common Misconceptions Regarding Field Finder Buttons

##### **Screen Help**

- Required Fields
- Screen Field Validations
- Screen Field Existence
- Delete Checks

##### **Update Mode**

##### **Paged List Boxes**

- Filtering
- Paging or Scrolling Up and Down
- Searching
- Exporting

## **Part II Setup Subsystem**

### **1 History**

#### **History List**

#### **History Detail**

### **2 Class**

#### **Fetching**

#### **Updating of Defaults**

#### **More Buttons**

- History
- Attachment button
  - Attachments
    - List of Attachments
    - Launching Attachment
    - Export Attachment List
    - Add/Edit Attachments
    - Attachment Detail
    - Adding Attachment
    - Changing Description
    - Deleting Attachment
    - Exiting
- ESig button
  - Electronic Signature
    - Defining Electronic Signers
    - Update Signers
    - Requiring Electronic Signatures

- Electronic Signature Entry
- Add'l Esig Button
- Recording Electronic Signature
- Viewing Electronic Signatures.
  
- 3 Manufacturer**
  - Fetching
  - More Buttons
    - History
    - Attachment Button
    - ESig Button
  
- 4 Category**
  - Fetching
  - Class, Category and Item Default and Global Updates
    - Updates During Category Entry & Update
    - Updates During Class Update
  - Picture of Item

    - Item User Fields and Scheduling Fields
    - Recap
    - Charges
    - Item Vendors
    - Comments
    - History and Results
      - Item History
      - Results
    - Attachment Button
    - ESig Button
    - Tag Exchange
    - Accessories
    - Procedure List
    - User Defined Button
  - Item Sticker**
    - Sticker Template
- 12 Employee**
  - Fetching**
  - Picture of Employee**
  - More Buttons**
    - Charge Rates
    - Attachment Button
    - ESig Button
- 13 Charge Number**
  - Updating the Grid**
    - Using the Paged Grid Control

**14 Virtual Bench**  
Updating the Grid

**Part III Servicing Subsystem**

**1 Servicing Steps**

**2 Tracking**

**Fetching**

- By Item
  - Recent Items
  - Item Field Finder
    - All Items
    - Items not in Tracking
  - Fetching Tag Exchanges
- By Job Number
  - Record Finder by Job
  - Recent Jobs

**Item Picture**

**Shelf/Lab Location**

**Customer and Charge Numbers**

- Email Customer

**Tracking Status**

- Track Status Logging
  - Changing Track Status and Entering Remarks
    - Track Status Change Simple Style
    - Track Status Change With Logging
    - Track Status Change With Logging and Remarks
  - Batch Track Status Change
- Viewing and Editing the Track Status Log
- Track Status Analysis Report

**Scheduled Dates**

**Tracking Progress Summary**

**More Buttons**

- Charges
- Service
- Ident
- Tracking Comments and User Fields
- Servicing History
- Results History
- Attachment Button
- ESig Button
- Tag Exchange PD
- User Defined Buttons

**To Do**

**Close Job**

**Close All**

**Replicate Service**

- For Item Button
- "+" Button
- Replicate Button
- "?" Buttons
- Service Replication Notes

**Print Traveler**

**3 Disconnected (Laptop) Functions**

**4 Calibration**

**Fetching**

- By Item
  - Using Recent Items
- By Job Number
  - Using Job Record Finder
  - Using Recent Jobs

- Alternate ID**
- Shelf/Lab Location**
- Cal Techs**
- Tracking Status**
- Cal Vendor**
- Cal Guidelines**
  - Procedure and Datasheet

    - Ident
    - Charges List
      - Charges Detail
- 11 Service Vendor**
  - Fetching**
    - Using Recent Items
  - Vendor Identification**
  - Vendor Certification**
  - Shipping Documents**
  - Quote and Cost Tracking**
  - Send Out and Receive Back Dates**
  - More Buttons**
    - Comments and User Fields
    - History
    - Attachment Button
    - ESig Button

## Part IV Reports

- 1 Reports**
  - Print Selected Report**
    - Report Data Specification
    - Report Printer Setup
    - Running the Report
  - Show My Reports**

## Part V Tools

- 1 Gate Security**
  - Fetching**
  - Functions**
  - Function Access for Groups**
  - Function Signing**
  - Gate Update Buttons**
    - Electronic Signers
    - Gate Users
    - Gate Groups
    - ESig Button
- 2 Reference**
  - Fetching**
- 3 Misc**
  - Import QuickPDR Updates**
  - Batch Track Status Changes**
    - On-Line Batch Track Status Change
    - Scanned Track Status Changes
  - Global Changes**
    - Global Cal Lab

- Global Contract
- Global Customer
- Global Location
- Global Item Status
- Global Sched Date
- Global Procedure
- Global Subcatg (Manufacturer/Model/Subcat)
- View Prior Global Changes
- View Global Change Error Log

**Labor Inquiry**

- Open Jobs, By Tech
- Closed Jobs, By Tech
- Open Jobs, By Item
- Closed Jobs, By Item

**Part VI WonderWriter**

**1 WonderWriter**

**Defining a WonderWriter Report**

- Designing Report
- Primary File
- Files and Fields
  - Adding Fields
  - Joining Files
- Display Field Order
- Format
  - Editing Format
    - Column Width
    - Column Headers
    - Sorting and Breaking
    - Zero Suppression
    - Adding Totals

To Do

**Report Layout Recommendations**

**Running a WonderWriter Report**

- Selecting the Report
- Filters
- Samples
- Running Full Report
  - Troubleshooting
- Statistical Summaries
- Record Counts
- Summary Only
- Performance Considerations

**WonderWriter Dictionaries**

- WonderWriter Files (WWFILES)
- WonderWriter Fields (Shortname by File) (WWFLDSHORT)
- WonderWriter Fields by File-Alpha (WWFLDFILEALPH)
- WonderWriter Fields by File-Position (WWFLDFILEPOS)
- WonderWriter Join Files (WWKEYSTO)
